How you can secure an even better placement on the most sought-after positions for 12 months.

TOP Premium Entry is now called: **TOP LISTING**

GET IN THE SPOTLIGHT

Just like on Google, campsites can now book ads for keywords in our free text search. Your campsite will be displayed alternately as one of the first 3 or last 3 results in the search results list for your keywords. Because these are the positions that attract the most attention.

Advantages:

While users generally perceive banners as advertising, Top Listing ensures that your ad is the answer to the camper's search and not only receives a top placement, but is also specially highlighted.

A Top Listing ad is an excellent way to target campers who are truly interested in your offer. That way, you'll have an even greater impact, both with campers who are just browsing and those who are specifically looking for a place to stay.

Top Listing is available at a fixed price. You'll always have full cost control.

With Top Listing, you stand to increase the number of hits for your entry many times over. Because your campsite is always shown in the best sections of the search result lists.

As before, booking by keywords can be based on regions (federal states, tourist destinations), but in the future also you can also select vacation themes such as families, wellness, vacationing with dogs etc.
